Cagliari: the city of the sun

Panoramic and walk tour in the district of Castello

Inside a comfortable 9-seater mini van, accompanied by our certified tour guide we will cross the most important districts of the medieval town, the panoramic promontories, the 10 km of Poetto beach and the Molentargius pond crowded by pink flamingos. Castello, the oldest of the four historical districts of the city rises on a hill in a prominent position, about 100 meters above sea level. The imposing walls that surround the perimeter of Castello, the towers of San Pancrazio and the Elephant, the bastions of Saint Remy and Santa Croce, the Porta dei Leoni, the Cathedral of Santa Maria, the noble palaces, the Royal Palace, the narrow streets and the ancient shops of craftsmen, make the quarter of Castello the symbol and heart of the city of Cagliari.
